Sleman, Yogyakarta

An Information Systems Student who has a great interest in graphic design and web development. Over the past year, I have been actively developing my skills in the field of web design, with a focus on creating attractive and user-friendly designs. I have broad skills in combining technical and creative aspects, as well as understanding design principles such as typography and color selection. I am committed to applying technical knowledge and graphic and web design skills in creating innovative solutions in the field of technology.
